

**RANDALLSTORY**  
STATE BANK

# Grow With Us

**Rick Schreier, President**

Rick's knowledge of agriculture started at an early age growing up on an Iowa family farm and has continued with over 21 years of banking and lending experience. With strong values and proven leadership qualities, Rick is committed to helping you achieve your farm operating goals. Experience with the latest technology gives him a unique understanding of current agricultural trends and how to stay competitive in today's ever-changing economy.

*"This state was founded on the basis of agriculture. We will continue to diversify and grow economically, but we must ensure that agriculture remains a strong component of our local economy."*

Times may change and your lender may change, but Randall-Story State Bank has been serving the needs of customers in agriculture since 1928. We wanted to take time to introduce or reintroduce you to our agricultural lenders who are committed to your success.

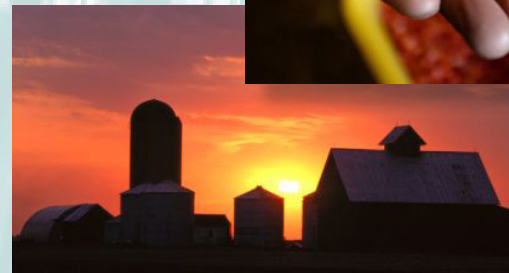

We depend on our farmers and admire their strong work ethic and unwavering dedication. We thank them for their hard work as stewards of the land.

**Cory Milbrandt,  
Vice President**

You can be confident that with Cory's 15 years of lending experience and his enthusiasm for agriculture, he is committed to the success of your farm operation. Whether on a farm visit, riding along in the combine, or visiting with you in the bank, Cory looks forward to listening to you and discussing your agricultural needs and future plans. With the utmost integrity and dedication, you are talking to a trusted friend focused on helping you succeed.

*"I enjoy dealing with farmers as they are such quality people. It's very rewarding when you see their operations grow and thrive."*
